

Dale Liu

Rising senior, Lynbrook High School, San Jose, CA

Autobiography:

Hi! My name is Dale, and I'm a rising senior at Lynbrook High School in San Jose, California. Over the past few years, I've been intrigued by the rapid growth of AI, and how it has become increasingly embedded into our lives. I believe that if AI continues to grow at this rate, it has the potential to dramatically reshape humanity in the near future. But this potential may also come with huge risks, so it is all of our responsibilities to ensure that these new innovations benefit mankind, and I'm really excited to learn more and see what the future has in store for us.

During my time at the 2026 IAIO, I talked to many competitors from across the world, and hearing about their experiences, culture, and thoughts on AI was truly eye-opening. I hope to meet even more people at the 2026 IOAI, especially after being introduced to so many new countries from the World Cup and seeing their names among the attendees in IOAI. I'm really looking forward to this experience and I'm so grateful for the opportunity to represent the USA at IOAI!
